

As a society, we have all been confronted with the challenges of a rapidly evolving global pandemic.

This is a fight that demands a compassionate and committed response to stay healthy, mitigate new workplace challenges, and support our customers and communities.

We are wrestling with unprecedented challenges in this changing climate. People's health is our priority and we are following the recommendations of the local and State health authorities. Despite the challenges of the current situation, we aim to continue being your dedicated partner in the best possible way. At the same time, we are doing everything we can to secure the safety of our employees and clients.

Throughout the past couple of months, our team at Compass Realty LP has taken many steps to cleanse each.
